

**PURPOSE OF APPLICATION**  
**W35DV-D Facility ID 185538 Augusta GA**

The application corrects the antenna model in the recently-granted W35DV-D Construction Permit (LMS file# 0000215133).

The LMS entry had inadvertently provided an incorrect antenna model as TLP-4B. The correct antenna model is DLP-4B. There is no change to the directional antenna pattern or the resulting coverage contour.

There are no changes to the original exhibits which are attached and specify the correct value.
