

PURPOSE OF APPLICATION
W18FC-D Facility ID 185606 Florence, SC

The application corrects the effective radiated power ("ERP") and antenna model in the recently-granted W18FC-D Construction Permit (LMS file# 0000185726).

The LMS entries had inadvertently provided incorrect values of ERP and antenna model as listed below. There is no change to the directional antenna pattern and the resulting coverage contour is encompassed by that as authorized in file# 0000185726.

	<u>CP file# 0000185726</u>	<u>Corrected</u>
ERP (kW)	15	4
Antenna Model	TLP-4B	DLP-4B

There are no changes to the original exhibits which are attached and specify the correct values.
