

**K285FC, Jefferson City, MO (Fac. Id. 140026)**  
**Silent STA Justification**

After recently acquiring this station, UNWSP discovered operational anomalies with station equipment and ceased station operations in order to completely evaluate all equipment for safety and compliance, identify what may need to be repaired or replaced, and seek construction permits as necessary. UNWSP hopes to return the station to on air operations sooner, but respectfully requests temporary authority to remain silent for 180 days while it works to restore this facility in order to serve the public with a reliable signal.
