

### **Amendment - Online Public Inspection File**

In the process of reviewing its online public inspection file, the Licensee discovered that the Online Public Inspection File database indicates that the 2021 Children's Television Programming Report was not filed. This is incorrect. The report was filed on January 31, 2022. The Licensee has uploaded a copy of the report, and a printed confirmation demonstrating its timely filing, to the station's online public inspection file in the Additional Documents subfolder within the Children's Television Programming Reports folder.

During regular review and maintenance of its online public inspection file in April 2023, the Licensee discovered that its 2022 commercial limits certification had inadvertently not been uploaded. The Licensee immediately uploaded the certification and filed this amendment. The Licensee notes that it operates the station on a non-commercial basis and that no commercial advertising is broadcast during any children's programming.
