### **Extension of Existing Engineering STA**

This is an extension of an existing STA for KKLS(AM). The STA was originally filed under BSTA-2019 0429 ABG.

Licensee has engaged an outside engineer to develop a plan for transitioning to a non-directional antenna, but other competing work (particularly involved in the most recent TV auction and c-band transition) has delayed the engineer's availability. Licensee anticipates the engineer will complete a Form 301 in the coming months and Licensee will file promptly. As such, Licensee respectfully request the extension of this STA an additional 6 months to allow Licensee to make the appropriate filings to request and implement modifications to become non-directional. Said extension is in the public interest.
