

Request for Special Temporary Authority

- "Extraordinary circumstances" which warrant temporary operation

The KGFT(FM) transmitter is not able to operate at full authorized power currently because of a failed tube. Repairs are underway but are expected to take some time. Accordingly, the Applicant requests Special Temporary Authority (STA) to operate KGFT(FM) at 52% of its authorized power. The Applicant requests STA to operate with the reduced power as necessary for a period of 90 days to allow for the necessary repairs.

- RFR Statement of Compliance

The temporary technical facility proposed herein does not cause any RFR safety concerns because the Applicant proposes operate with the authorized technical facility at a reduced power. Further, the applicant is committed to reducing power and/or ceasing operation during times of service or maintenance of the transmission systems as necessary to avoid potentially harmful exposure to personnel. In light of the above, the proposed facility should be categorically excluded from RF environmental processing under section 1.1307(b) of the commission's rules.
