

The Licensee seeks Special Temporary Authority to operate using the facilities specified herein. The Station's tower collapsed, destroying the tower and antenna. The Licensee requests to operate from a temporary location with a temporary SWR 3-bay antenna at an ERP of 1.3 KW. The location is located on Sugar Island near the community of license. This location will permit the Station to remain on the air at reduced power while continuing to provide service with limited coverage to the community of license.
