

Request for Extension of STA

Alpha Media Licensee LLC ("Alpha"), licensee of WWDM(FM), Sumter, SC, hereby requests a further extension of the special temporary authority, BSTA-20200318AAC, as extended, to continue to operate from the station's licensed location with the repaired antenna at an effective radiated power of 82kW until Alpha is able to obtain historical data from the FCC's files. Alpha intends to file a Form 2100, Schedule 302-FM application to incorporate certain revised parameters of the antenna system, but continues to be unable to obtain historical station data from the FCC's files to complete the preparation of that form.
