

Appropriate Use of *Pro Forma* Transfer Application/Nature of Transfer

Evangelistic Alaska Missionary Fellowship, Inc. is a not-for-profit corporation which is the licensee of NCE stations KJNP(AM), KJNP-FM, and associated translators. The proposed transfer of control is coming about due to the replacement prior to the last ownership report of one prior board member with his son following the former board member's death and the planned replacement of two additional board members due to their desire to retire from active, day-to-day involvement and responsibility with the governing board. Thus, after a long period of little change, the governing board membership has gradually changed over time, until it reached the point at which a majority of the board members will be new or relatively new to the board.
