

Nexstar Media Inc.
KGJT-CD, Grand Junction, CO
(Fac. ID 71948)

**Notification of Reduced Operations and Request for Special Temporary Authority to
Operate at Reduced Power**

Nexstar Media Inc., licensee KGJT-CD, Grand Junction, Colorado (the “Station”), hereby notifies the FCC that the Station has been operating at approximately 50% of its authorized power since September 14, 2023 due to a transmitter malfunction resulting in a high VSWR condition. Replacement parts have been ordered from the manufacturer, but because they are in Germany, delivery will not occur until after 30 days. As a result this STA request is being filed to allow the Station to continue reduced power operations for longer than 30 days until the repairs are completed and the Station resumes normal authorized operations. The Station has worked with all cable and MVPD providers to ensure no loss in carriage.
