

**RF Exposure Statement  
Auxiliary Facility Construction Permit  
KDFW Dallas, TX  
Channel 35  
September 15, 2023**

The facility proposed in this application will operate with an effective radiated power (ERP) of 248.6 kW and a center of radiation 330 meters above ground level (AGL). An analysis of the radiation levels at 2 meters AGL indicate the RF exposure level would be well below the allowable limit for an uncontrolled area and therefore meets the requirements. All other current safeguards related to the site, with regard to both workers and the general public will remain in place.
