Extension of Existing Engineering STA

The proposed facility is excluded from environmental processing under 47 C.F.R. Section 1.1306.

Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.

September 2023 Update:

Licensee respectfully requests an additional six months to secure the required ATU and engage personnel for the necessary repair and replacement of the transmitter. Equipment costs, availability of personnel, and other priority matters have prevented the Licensee from moving forward with the ATU replacement and the transmitter repair or replacement at this time. Legend requests continuation of its special temporary authority to operate station KZMQ(AM) with reduced daytime power of 1 kilowatt.
