Hi all,

Just wanted to circle back here. We greatly appreciate the time you took to speak with us a few weeks ago and would greatly appreciate a response to our August 30 e-mail confirming the information you provided.

Regards,
Evan

Hi Ricardo, just circling back here.

Can you please confirm the following. Please feel free to add your colleague Chris, I did not have his contact information.

Regards,

Evan

Thank you again for you and Chris's time to chat. We just wanted to just confirm the information that was provided.

1. The pictures provided were the complete set.
2. The difference of where the transmitter is located in certain pictures was because the transmitter was relocated during the process of installation and taking the pictures.
3. The pictures were taken on July 31, 2023, as time stamped, which was also the date the installation was conducted and completed.
4. The outdoor antennas are not aimed at any particular azimuth.
5. The antennas pictured inside the building are receive antennas aimed at the Empire State Building.
6. The equipment inside the cabinet was assembled by the licensee or some other person, but not your staff.
7. The outdoor antennas shown are connected to the transmitter cabinets inside.

I apologize, but I do not have Chris' e-mail, but please feel free to add him to the chain.

If you can please reply to this e-mail and verify we have all this information correct that would be appreciated.

Regards,
Evan

Good day Ricardo. Evan Morris at the FCC called me and would like to speak to you about the installation you did for me at Palace, 200 E 69th St. (Evan I just saw this now in my emails, hence we are acting upon it now.

Ricardo, this is the temporary install for Ravi Kapar, the company Diyat USA.

Please answer Evans call and be open and honest with him.

Evan, anything you need you got it. Ricardo generally does not answer his cell phone calls but always returns them. Ricardo thanks in advance for your help.

Evan, Ricardo's cell is 631,727 7662 (best number)

office 718 729 7662

All the best
