

**Justification for Extension of STA**

Milwaukee Media LLC, licensee of full power television station WIWN(TV), Fond du Lac, WI (FID 60571), hereby requests an extension of its special temporary authority to operate at 34 kW ERP (File No. 0000204223). The Licensee has found, anecdotally, that the increased power has resulted in some improvement to the over-the-air reception of WIWN's signal.

On March 10, 2022, the Licensee filed a petition for rulemaking to permanently improve the ability of viewers to receive WIWN's signal (File No. 0000186370). That application remains pending. An extension of the STA will allow the Licensee to continue to deliver an improved signal on a temporary basis until it is able to implement this permanent solution.
