**RF Channel 6 General Letter of Concurrence** - With this letter, Juan C. Matos Barreto ("Matos"), licensee of Low Power Television (LPTV) station W06DA-D, Aguada, Puerto Rico (Facility ID # 188724) ("W06DA-D") operating on RF channel 6 hereby gives general concurrence for any request for a waiver of 47 CFR §73.825 in respect to Low Power FM (LPFM) and 47 CFR §74.1205 in respect to FM Translators and FM Boosters (collectively "FM application(s)") for such low-powered operations in the FM reserved band (88-92 MHz) with the following applicable conditions as set forth:

- J.C.M.B.
- (1) This Letter of Concurrence only applies to FM applications for original construction permit applications, modification of licensed facility applications and modification of construction permit applications that are being coordinated by Michelle Bradley, CBT at REC Networks ("REC") or her authorized agent.
  - (2) The proposed FM application does not meet the minimum distance separation requirements of §73.825 to W06DA-D in respect to an LPFM application or in the case of an FM translator, the appropriate interfering contour of the proposed translator intersects the 47 dBu F(50,50) service contour of W06DA-D;
  - (3) The FM application shall not specify operation on Channel 201 (88.1 MHz).
  - (4) The FM application shall not specify operation on Channel 202 (88.3 MHz).
  - (5) The effective radiated power specified on the FM application is 250 watts or less, utilizing horizontal, vertical or circular polarity.
  - (6) This blanket letter shall also apply to FM booster station proposals. For the purposes of this letter, an FM booster station shall be considered an FM Translator.
  - (7) Once the LPFM/FM Translator facility is constructed, the LPFM/FM Translator grantee specifically agrees to remedy any cases to Matos signal complaints (whether W06DA-D is presently configured or as modified in the future), within or outside of the the affected LPFM/FM Translator coverage areas. In the event that Matos notifies the LPFM/FM Translator grantee of any possible interference issue, the LPFM/FM Translator grantee shall immediately reduce its power and if in Matos' sole discretion, the interference remains, the LPFM/FM Translator shall immediately go off-air. For each interference case reported, the LPFM/FM Translator grantee shall provide to Matos and REC, within two business days, a status report of additional actions taken. The LPFM/FM Translator grantee will subsequently provide weekly updates and, if a resolution cannot be made within 3 business days, will cease operation of the LPFM/FM Translator causing interference, until and unless a permanent solution can be utilized to the complete satisfaction and approval of Matos.
  - (7) REC shall serve the LPFM/FM Translator applicant with a copy of this agreement for their review to assure that they have an understanding of the terms of Condition (6) and that any

application filed with the Federal Communications Commission in respect to this letter shall be accompanied by a letter or email response from the LPFM/FM Translator applicant acknowledging and agreeing to the terms and conditions set forth in this letter.

(8) In the event that the LPFM/FM Translator facility is assigned to a different entity, the LPFM/FM Translator license shall provide a copy of this Letter to the proposed assignee prior to consummation and that the conditions of this agreement shall remain in force.

(9) This blanket consent shall remain in force in the event that Facility ID # 188724 is changes call sign from W06DA-D to a different call sign.

This blanket consent remains in force until one of the following events occurs:

- (1) W06DA-D is assigned and consummated to new ownership in which Matos is no longer a party in interest; or
- (2) W06DA-D permanently discontinues operations on RF Channel 6 (82-88 MHz).
