

Statement of Educational Purpose

Incorporated in Alaska, April 2010

Artchange, Inc., seeks to use this low power station for the purpose of educating the general public. We will use underwater microphones to give voice to those who are otherwise completely voiceless on the radio dial — whales. We hope that by hearing the direct uncensored voices of whales, the general human public will learn more about the views and philosophy of these mammoth distant cousins of humanity. In the times of climate change, ocean acidification, and other environmental encroachments by humanity, it is important to grow awareness around the plight of ocean creatures, like whales. We hope that whales of all viewpoints, and cultural perspectives will avail themselves of the opportunity to voice their vocalizations on this radio station, in the name of education, empathy, and empowerment.
