

New LPFM Station
Coastal Georgia Area Community Action Authority, Inc.
Brunswick, Georgia
December 2023

Technical Statement

Coastal Georgia Area Community Action Authority, Inc. herewith is filing for a new LPFM Radio Station at Brunswick, GA. The transmitter and the studio will be located at the Authority's office building. The 10.7 meter tower is to be supported by the back of the office building and will support the antenna above the roof.

The proposed site (31° 10' 58.6" North Latitude, 81° 28' 42.6" West Longitude) meets all allocation spacing requirements on proposed Channel 258. Please see the attached allocation study.

A search was made for translators within 10 km of this proposal whose off-the-air input station reception could be adversely affected. Only two translators (W248AH and W293CH) were identified that receive their programming off-the-air. Both translators are 1.77 km away. There is no channel relationship to the off-the-air frequencies being received (WWEZ-LP on Channel 234 for W248AH and WYFS (FM) on Channel 208 for W293CH). Therefore, the applicant is in compliance with §73.827(a) of the Commission's rules.
