

Educational Program

Biblical Insight was founded for the purpose of revealing God's Word, the Holy Bible, and to accurately and insightfully teach its rich meaning in a world which is rapidly forgetting the Creator.

Above all, this new LPFM radio station will teach Bible truth in love, while also providing a variety of general quality educational radio programming to uplift, encourage and inspire the people of the Helena area.

Home oriented educational topics will assist in the construction and maintenance of strong cohesive families with emphasis on character building programs for children, and instruction for husbands and wives on how to have a better marriage and keep the home harmonious, happy and prosperous.

Wellness features will be broadcast daily dealing with all aspects of health: physical, mental, social and spiritual. Physicians and other health professionals will instruct in both the fields of allopathic medicine and natural remedies.

General educational topics will also be included such as science, history, civics, arts, culture, etc.

News, weather and public service announcements may also be broadcast to meet community needs and interests.

Programming will be relevant and meaningful to everyone in the community regardless of age, sex, socio-economic situation, race, ethnicity, religion or philosophical perspective.
