

### **Educational Objective**

Winchester Public Media is a registered non-profit entity, seeking to use radio broadcasting to serve the public needs of residents in the Winchester Tennessee area. Embodying 'the spirit of Winchester' and sharing timely news and local information, our objective is to provide a series of educational and informational programming through alert community broadcasting radio.

Through our broadcasts, proposed mobile app, and website, we will connect with and celebrate our city's unique culture, emphasizing its vibrant community heartbeat. We will offer short educational announcements and long-form programs that cover critical topics of importance to individuals and families. These subjects encompass financial education, relationship and family guidance, and health and safety education.
