

## **Advancement of FCC Educational Program Supplement**

This exhibit is to further demonstrate Worship Is A Simple Thing's ("WIAST") educational objectives and that the proposed radio station will be used for the advancement of an educational program under 73.503(a) of the Rules.

The proposed station's educational broadcast program is to be a community led and managed radio broadcasting service, providing access, information, communication, entertainment, training, and employment. WIAST will encourage and promote a voice for those who are underrepresented or socially excluded to provide an outlet for creativity, shared vision, and expression.

One of WIAST's educational objectives is to increase media access for various groups in Tucson and southern Arizona.

Objectives of the service:

- To create and promote a nonprofit, non-commercial, educational community radio station for the benefit of the Tucson area.
- To provide the Tucson area with access to news and information not currently available on existing radio stations.
- To build community cohesion through the broadcast of robust conversations about local, statewide, regional, national and international issues.
- To provide media literacy training to members of the Tucson community.
- To engage youth in the creation of media content, which will allow them to build skills leading to employment.
- To provide an outlet which amplifies local artists, independent musicians, non-profits, small businesses, religious service organizations, and diverse populations whose voices and perspectives are often absent from media discourse in Tucson and southern Arizona.
