

Kern sounds

This is an exhibit demonstrating Kern Sounds goal to provide Educational Programming to the community of Bakersfield, Ca. Under FCC rules 75.503(a). Our goal is to start a broadcast radio station that the local community can relate to. Locally, on the radio dial there is an over abundance of redundancy in programming. From the commercial stations to the religious stations. Kern Sounds hopes to provide a light at the end of the tunnel on the radio dial.

Kern Sounds hopes to provide music, educational programming that will have some value to the average listener. This can be achieved easily with a few goals.

1. Innovative and relatable talk and “Podcast Style” shows.
2. Interaction with the local arts and Theater community.
3. Music programming breaking redundancy rules.
4. Interaction with local city collage. Possibly classes and lab for students. To learn broadcast management.

With very few choices with actual local programming. Kern Sounds can fill a few voids on the FM dial.
