To Whom It May Concern:

Please let this letter serve to designate Trinity County Information Service Inc. (TCIS) as a non-governmental public safety information entity. During times of emergencies within Trinity County, TCIS works closely with emergency service entities, such as the US Forest Service, CALFIRE, OES, and the County of Trinity to distribute public safety information to the public via internet, in-person, and via the telephone. In fact, providing emergency information to the public is part of TCIS's mission statement.

Trinity County is a sparsely-populated county in Northern California, which is regularly impacted by wildfires, flooding, and other natural disasters. Having one entity that can easily disseminate public safety information to the public via multiple LPFM stations in Trinity County would be invaluable to the safety of our communities. I hope this will be taken into account and permit TCIS to be granted multiple LPFM licenses.

Thank you for your consideration. I can be reached at the telephone number or email address shown below should you have any questions.

Respectfully,

A handwritten signature in blue ink, which appears to read "Philip Simi", is placed below the word "Respectfully,".
