

**Exhibit Regarding Uneven Calendar Quarters**

The Licensee of KTVA(TV), Facility ID No. 49632 (the “Station”) has selected Category A, Option 1 to demonstrate the Station’s compliance with the Commission’s Core Programming safe harbor processing guidelines. *See* 47 C.F.R. § 73.671(d). All of the Station’s three weekly hours of Core Programming is regularly scheduled weekly programming airing on Saturdays. Out of an abundance of caution, the Licensee therefore notes that it has reported 39 hours in First Quarter 2023—just as the Licensee reported 39 hours in Fourth Quarter 2022 (see LMS File No. 0000210033)—even though an oddity of the calendar rendered those quarters with 14 and 12 Saturdays, respectively. Put differently, this report reflects the fact that the Station aired an average of three weekly hours of regularly scheduled weekly core programming across the 6-month period spanning Fourth Quarter 2022 and First Quarter 2023, as required for compliance under Category A, Option 1.
