

WSTE-DT Children's Television Programming Report 2023

WSTE, LLC ("Licensee"), licensee of commercial television station WSTE-DT, Ponce, Puerto Rico ("WSTE") is submitting the instant Children's Television Programming Report ("Report") to report Core Programming from January 1, 2023 through December 31, 2023 ("Reporting Period"). Because Licensee has satisfied the Category A, Option 1 safe harbor processing guideline through Core Programming listed on the Report, it is not reporting non-regularly scheduled and other children's programming aired during the Reporting Period. Licensee also notes that, in September 2023, Licensee discovered that the E/I symbol was not being included in its Core Programming. Licensee accordingly has responded "No" to the inquiry in the Report on this matter. However, promptly after the September 2023 discovery of the issue, Licensee implemented a procedure to display the E/I symbol on its Core Programming. Following this procedure, the E/I symbol appeared in all of Licensee's Core Programming.
