ENGINEERING REPORT

New NCE-FM, Edgartown, MA, Site-move (218A)

ENGINEERING STATEMENT

This minor change to the LMS CP of Friends of mvradio, Inc. (Facility ID 768062; LMS File No. 000167340) proposes a change to the transmitter site with the proposed use of an omni-directional antenna from the new site. The authorized city of license—Edgartown, MA—will continue to be served by more than 50% of its population by the 60 dBu F50,50 service contour of the proposed facility.

All FCC protection requirements are met by this proposal.

Note that the Population and Area information now has no bearing on the grantability of this application and those values are not revised (and will be revised upon request by the FCC).
