Fill In Translator for WHK AM Cleveland OH - Facility ID: 72299

Application- Minor Modification of CP File No. BLFT-20180305AAW

This application is for a minor modification of Fill-In translator W275DF CP Cleveland, OH. The only change being requested is to change the make/model information for the non-directional antenna. No other changes are being proposed, and no new exhibits are being added.

47 C.F.R. Section 1.1306

A Commission grant of Authorization for this location would not be an action which will have a significant environmental effect. The ERP proposed is less than 100 watts and therefore the instant application is categorically excluded from environmental assessment in accordance with OET Bulletin 65 and FCC Guidelines. The permittee/licensee in coordination with other users of the site will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
