

## **PURPOSE OF SECOND AMENDMENT**

The purpose of this amendment is to report that the applicant has attributable interests in two other FM stations.

The applicant's application for a new NCE station at Makanda, Illinois in File No. 0000167813 was granted and resulted in station WTLG, Facility ID #768697.

The applicant's president is a member of the board of directors of the licensee of WRLP, Orange, Virginia, Facility ID #172446. The reporting of this interest was previously inadvertently overlooked.

The attached map shows that both of these stations are located at great distances from the location of the proposed station in this application and that the applicant's claim to diversity of ownership is not disturbed.
