

K282CH (formerly K272FP) returned to the air on August 2, 2023 at its licensed transmitter site with its licensed facilities. The licensee entered into a new transmitter site use agreement with the site owner, American Tower, and as a result resumed operations.

As a result, Catholic Radio Network, Inc. will be turning in for cancellation a construction permit it obtained to move K282CH to a new site, File No. 0000217903.
