February 7, 2024

The final amplifier tube in our transmitter is failing and due to winter conditions the site is not accessible at this time. We are requesting Special Temporary Authority ("STA") to operate at below licensed power for more than 30 days until the spring when the site can be accessed again.

It is in the interests of the public that the station be allowed to operate at reduced power as repairs are carried out. It is anticipated it will take 90 days for conditions to improve sufficiently to allow site access.

Please direct any inquiries regarding this matter to the undersigned.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Troy Langham".
