Owner:	Eric Campbell 16175430003	Status:	Approved
Carrier:	ARK Multicasting	Construction Dates:	2/26/2024 - 3/1/2024
Collo App:	201437	Carrier Site ID:	130216 / Wadena MN

Comments/Special Inst:

Scope Of Work: ARK antenna replacement w/new Dielectric antenna at the 213.5 ft. elevation. Replace existing coax w/1-5/8" coax and place Hitachi transmitter in ARK's shelter.

Access Requirement: Carrier/Contractor must notify SBA Operations RSM 72 business hours prior to commencement of work. In addition, a site walk/pre-construction meeting with the SBA Operations RSM and Contractor Construction Manager to discuss the site plans and implementation of this new installation onsite must be scheduled. A pre-construction log may be required, please contact the SBA Operations RSM to schedule prior to beginning any work.

CC Approval To: ecampbell@saigrp.com jweiss@arkmulticasting.com cweiss@arkmulticasting.com
wesley@wallacetower.com alyx@wallacetower.com

Access Conditions: This Notice to Proceed (NTP) requires carriers, contractors and sub-contractors to follow all municipal, state and federal avian protection guidelines when entering an SBA site. The validity of this Notice to Proceed approval is subject to these conditions. Regardless of the type of NTP access requested, if you observe bird activity or a nest upon deployment to the site, this will invalidate the Notice to Proceed approval. Do not enter the site; instead, contact SBA Compliance at wildlife@sbsite.com.

Avian Work Guidelines:

AccessNote

NTP Approval

RSM: sbasite\dcotto On 1/30/2024 3:39:20 PM

Instructions: Please note that before any work gets started, all contractors that will be working on site must be on the NTP. Contractors are required to check into the site via SBA NOCC by calling 1-888-950-7483 or via SBA mobile app during each visit. Please upload closeout on the SBA documents provided with this NTP approval, including photos, within 72 hours of completion.

Safety

- ☒ Agree with safety requirements and compliance
- ☒ Will installation or scope of work NOT obstruct the climbing path or safety climb system?
- ☒ Will installation or scope of work use existing easements?
- ☒ Will installation or scope of work NOT obstruct lighting system?
- ☒ A Gin Pole is NOT going to be used to complete the scope of work?
(If one is needed, must have written approval from the SBA Risk and Safety Management Department.)
