Amendment to 2022 Children's Television Programming Report

Reason for Amendment

WNCF's 2022 Children's Television Programming Report is being amended and refiled on February 15, 2024 to correct inadvertent errors in the number of hours the following programs were broadcast by quarter: Digital Core Program 4 of 14 (Jack Hanna's Into the Wild) and Digital Core Program 12 of 14 (Hearts of Heroes). There is no change to the total number of hours of regularly scheduled weekly Core Programming nor to the total times each show was aired, all of which was correctly reflected in the original filing.

This amendment also updates WNCF's contact representative to the current contact, Steven A. Rowings at Akin Gump Strauss Hauer & Feld LLP. No other change has been made to the report.
