

Extraordinary Circumstances

KCKS-LD is licensed on tower ASR #1033284. The tower has developed issues in that the top section has warped and my tower crew does not feel it is safe.

Therefore we are requesting an STA to go back to our previous granted license location 6 Km south of the current license. The STA coverage will fall within the present KCKS-LD licensed coverage (See Attached) .

The STA will allow KCKS-LD to stay on the air until it can be decided what to do about ASR #1033284.

The STA will best serve the public by not causing a disruption of KCKS-LD's programming in the area.
