Evan:

Sorry about the delay in getting back to you.

An antenna had been mounted on the proposed tower (but was not connected), and there was a transmitter at the site, that also was not connected and capable of broadcast operations.

Both items have been removed from the site.

Please contact me if you require any additional information.

Dan,

We have not received a reply here. Can you please confirm what is going on here? Has construction stopped? Was construction in fact occurring during the pendency of the CP?

I have added the licensee to this chain.

Evan

Dear Licensee/Counsel:

We are in receipt of information that the above captioned station has have commenced construction at a site for which you do not have a valid construction permit. By this e-mail we instruct you to **IMMEDIATELY CEASE AND DESIST ALL CONSTRUCTON**. The underlying digital flash cut construction permit is under appeal and as such the minor modification application you appear to building is still pending. See LMS File Nos. 000015043; 0000152120; 0000177310. We are actively working to resolve the pending matters and hope to in the very near future. But until then you must cease all construction. If this information is incorrect, please clarify the precise facility that is being constructed. This matter has also been referred to the Enforcement Bureau.
