Re: New LPFM – NORTHWEST BROADCASTING CORPORATION
Cabo Rojo, Puerto Rico
Proposed Frequency: 93.7 MHz

Dear Ricardo Cruz,

Thank you very much for your PRCZ approval request sent to us in accordance with the Puerto Rico Coordination Zone agreements. We have considered the technical aspects of your application and find that the following installation in **Cabo Rojo, PR** is unlikely to cause harmful interference to the passive use of the Radio Astronomy bands at the Arecibo Observatory.

We therefore have no objections to the proposed installation.

Antenna Location	City, PR	Frequency
18° 02' 07.4" N + 067° 11' 05.2" W	Cabo Rojo, PR	93.7 MHz

Sincerely yours,

A handwritten signature in blue ink, which appears to read 'Angel M. Vázquez', is positioned above a horizontal line.
