

**ATSC 1.0 HOST EXHIBIT
(Amended February 22, 2024)**

Pursuant to 47 C.F.R. § 73.3801(i)(4), Graham Media Group, San Antonio, Inc. (the “Licensee”), licensee of KSAT-TV, San Antonio, Texas (Facility ID No. 53118) (“KSAT-TV”), hereby provides the following information in support of its request to license guest ATSC 1.0 multicast streams in connection with its application for modification of license to commence operating KSAT-TV as a Next Gen TV broadcast facility:

KSAT-TV Primary and Multicast ATSC 1.0 Streams

| STREAM: | Primary Stream | Multicast Stream | Multicast Stream | Multicast Stream | Multicast Stream |
|---|--|------------------------------|----------------------------|------------------------------|----------------------------------|
| AFFILIATION: | ABC | MeTV | Movies! | H&I | Start TV |
| VIRTUAL CHANNEL NUMBER: | 12.1 | 12.2 | 12.3 | 12.4 | 12.5 |
| PRE-3.0 TRANSITION RF CHANNEL NUMBER/RESOLUTION: | 12 720p | 12 480i | 12 480i | 12 480i | 12 480i |
| POST-3.0 TRANSITION RF CHANNEL NUMBER/RESOLUTION: | 9 720p | 15 480i | 9 480i | 29 480i | 18 480i |
| ATSC 1.0 HOST STATIONS: FAC. ID NO.: | KLRN Fac. ID No. 749 | KVDA Fac. ID No. 64969 | KLRN Fac. ID No. 749 | KENS Fac. ID No. 26304 | KNIC-DT Fac. ID No. 125710 |
| PREDICTED POPULATION COVERAGE OF ORIGINAL 1.0 SIGNAL SERVED BY HOST STATION: | 92.6% (97.9% of DMA) | 96.9% | 92.6% | 98.5% | 92.1% |
| SIMULCAST IN ATSC 3.0? | Yes | No | No | No | No |
| IF YES, PAIRED STREAM? | KSAT-TV Virtual Ch. 12.1 RF Ch. 12 | N/A | N/A | N/A | N/A |

The above-referenced programming streams are the same number of programming streams, and in the same resolutions as, the programming streams that KSAT-TV is currently broadcasting on its own 1.0 facility prior to transitioning to 3.0. Accordingly, the Licensee is not seeking to license more capacity on the Host Stations, in the aggregate, than KSAT-TV would use if it were still operating its own facility in 1.0.

The attached contour overlay maps demonstrate the above-referenced predicted percentages of population within the noise limited service contour served by KSAT-TV’s original 1.0 signal that are served by the Host Stations. The maps also demonstrate that KSAT-TV’s multicast streams, as carried on the Host Stations, will continue to serve the KSAT-TV community of license, San Antonio.

All Host Stations are assigned to the San Antonio Nielsen DMA.

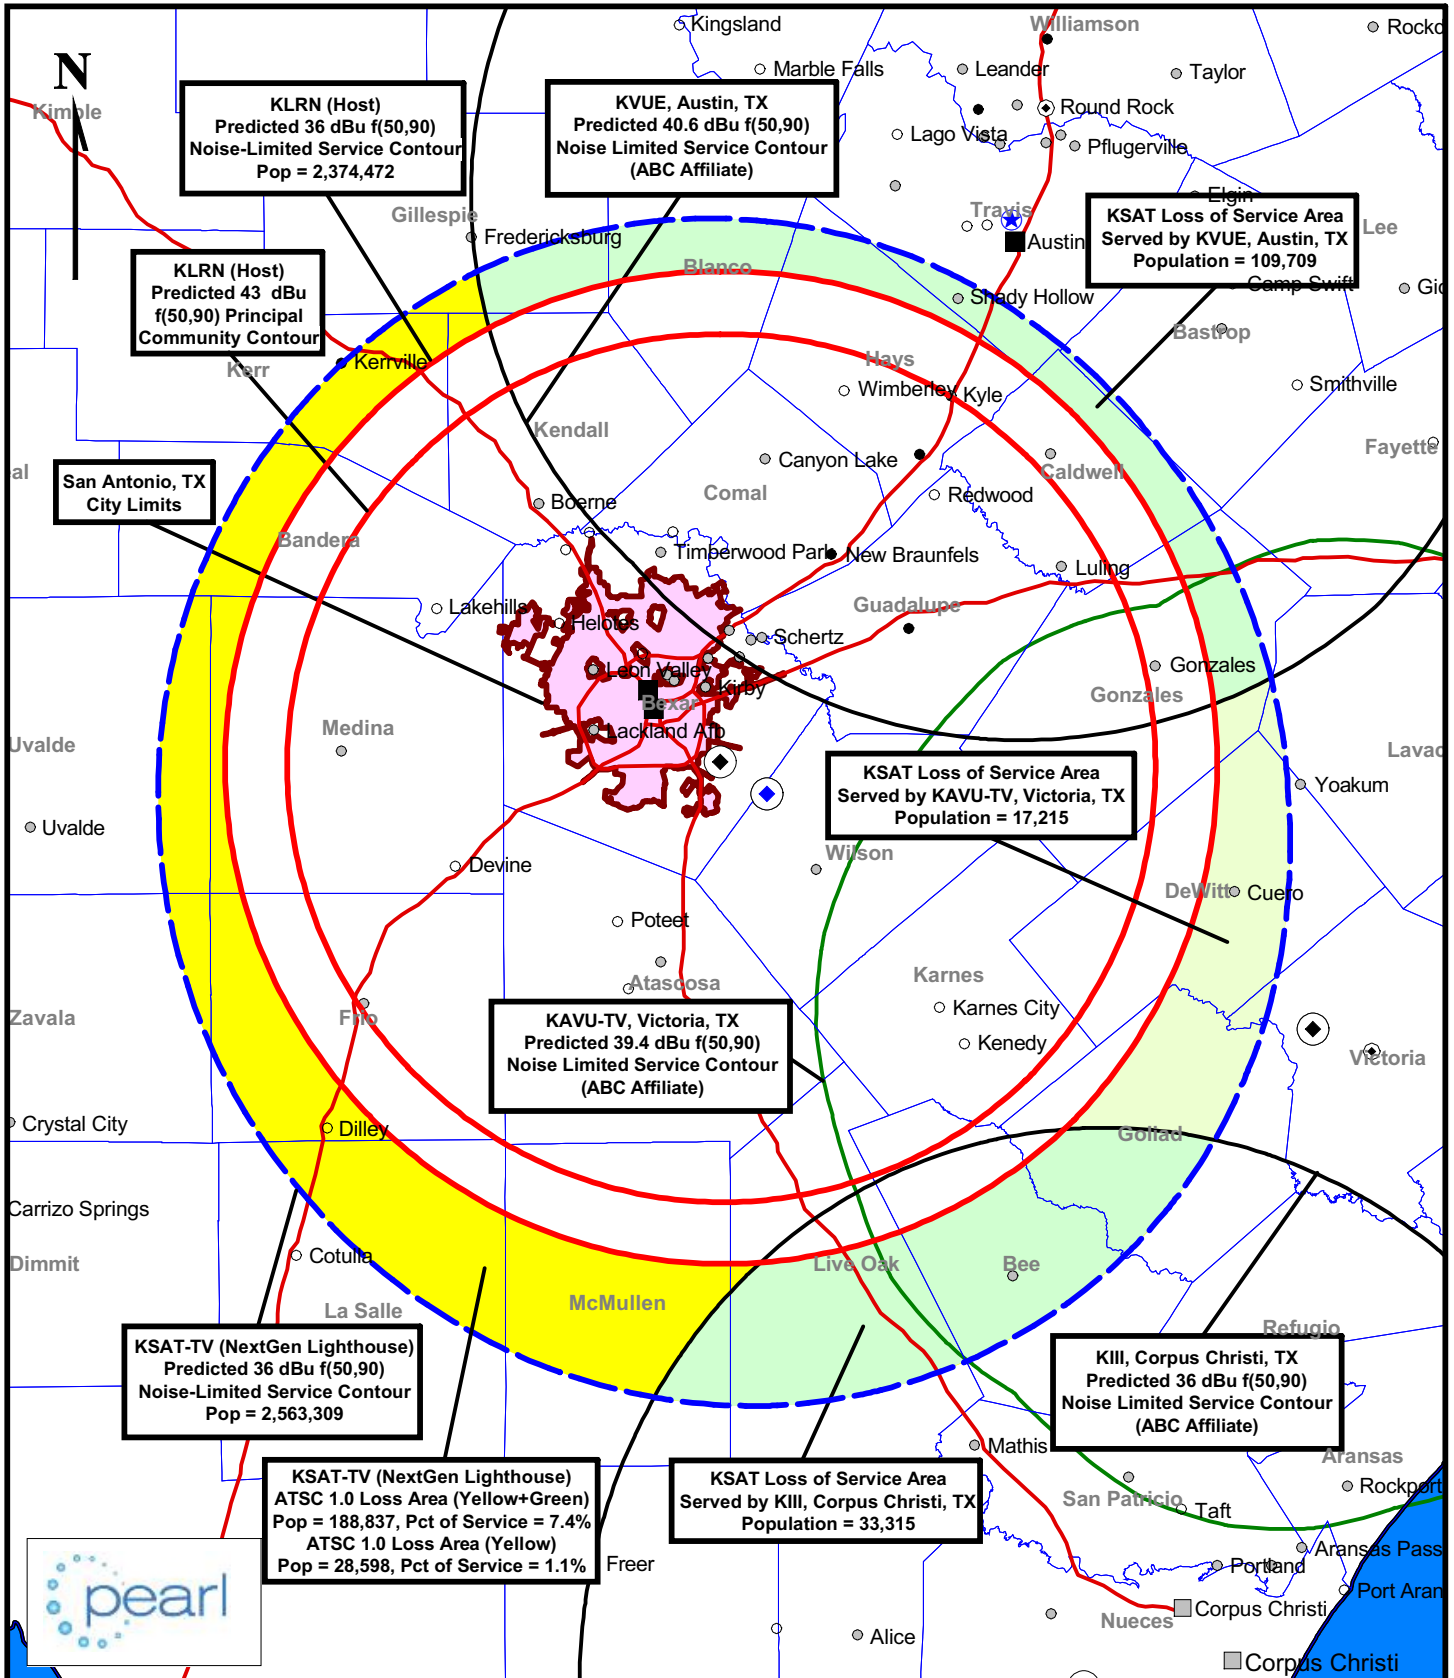

KSAT-TV relies on its MeTV (12.2) multicast stream in order to comply with the Commission's children's television programming requirements. As referenced in the chart above, the Host Station for KSAT-TV's MeTV (12.2) multicast stream, KVDA, serves more than 95 percent of the predicted population served by KSAT's pre-transition 1.0 signal, and accordingly, KSAT-TV may continue to rely on its MeTV (12.2) multicast stream for children's programming compliance pursuant to 47 C.F.R. § 73.3801(i)(3). KSAT-TV does not rely on any other multicast stream for children's programming compliance.

The Licensee has provided the required notifications to viewers and the relevant MVPD distributors.

Pursuant to 47 C.F.R. § 73.3801(f)(6)(i)(D), this ATSC 1.0 Host Exhibit is available on KSAT-TV's public website at the following link: <https://www.ksat.com/station/2020/12/22/fcc-applications/>
