

Request for Special Temporary Authority

Truth Broadcasting Corporation (“Truth”), licensee of FM broadcast station WKHF, Lynchburg, Virginia (Facility ID No. 183352) (“WKHF”), hereby requests Special Temporary Authority (“STA”) to operate WKHF from an alternative transmitter site.

On August 1, 2022, Truth acquired WKHF. *See* LMS File Nos. 0000186533 & 0000196752. At the time it acquired WKHF, the landlord of the station’s transmitter site refused to permit Truth to assume the tower lease on a long-term basis – only permitting Truth to operate with a month-to-month lease for the site. Since that time the landlord has refused Truth’s multiple requests to enter into a written lease, thereby forcing Truth to find an alternative transmitter site for the station. Truth has identified a new transmitter site for WKHF, and is currently preparing a modification application to relocate the station to a new transmitter site. In the meantime, Truth is requesting STA to operate WKHF from its proposed new transmitter site until the modification application has been granted and a subsequent license application has been filed.

Accordingly, Truth respectfully requests STA to operate WKHF from its proposed new transmitter site until a modification application has been filed and granted, and a subsequent license to cover application for the new site has been filed.
