

## **Description / Agreement**

This application seeks recognition by the FCC of the transfer of less than a controlling interest in the licensee pursuant to 47 CFR 73.3540(f)(6), the result of which will be that two of the remaining members of the licensee will together control more than 50% of the licensee's unincorporated membership units.

There is no written agreement between the parties regarding the transfer of Roberta S. Long's 42% membership interest in the licensee to two of the other member-managers of the licensee. Instead, the transfer is governed by the last will and testament of Roberta S. Long, now deceased, which bequeaths her 42% membership interest in equal portions to Christopher F. Long and Charles E. Long, who (a) are each currently 8% member-managers of the licensee, as recognized by the FCC in long form assignment application 0000216352, and (b) by this transfer, will each become 29% member-managers of the licensee, together controlling more than 50% of the licensee's unincorporated membership units. The only other membership interest in the licensee is held by 42% member Thomas E. Long Jr., and that pre-existing interest is unaffected by the described transfer.
