

Request for Special Temporary Authority to Operate at Reduced Power

Clark County School District ("CCSD") the licensee of noncommercial educational television station KLVX, Las Vegas, Nevada (Facility ID No. 11683), hereby respectfully requests special temporary authority to operate the station at reduced power pending replacement of the station's aging transmitter. Due to the age of the transmitter and a lack of repairable or replaceable amps, the station recently began operating at approximately 70% of authorized total output power. CCSD is diligently seeking a new replacement transmitter and is committed to restoring the station to its licensed full power operations as quickly as possible. In the meantime, CCSD respectfully requests special temporary authority to continue operating the station at reduced power for a period of 180 days or until such time as the new transmitter can be installed.
