Chief Joseph Community Services  
Television Translator Renewal

FI 10815 K25NY-D, 10816 K23MU-D and 10819 K24LM-D

Chief Joseph Community Services respectfully requests acceptance of this late filing. Chief Joseph Community Services had been relying solely on a third party contractor to manage FCC matters. This contractor had failed to file their license renewals. Chief Joseph sought out our office to assist them in preparing their license renewal application when it was discovered that the renewals had not been timely filed. This is a very small television translator district that serves the rural population of approximately 2,500 people in Bridgeport, WA, on a non-profit basis. Chief Joseph is reliant upon members of their viewing community to make a voluntary annual contribution to cover all expenses related to their operation. It remains in the public interest to continue this free over the air transmission of KAYU-TV, KSPS-TV and KREM.

Respectfully submitted,

Susan Hansen

President
