

### **JUSTIFICATION FOR SPECIAL TEMPORARY AUTHORITY**

Entravision Holdings, LLC, the licensee of KFRQ(FM), Harlingen, TX (FID 56484), hereby requests special temporary authority to operate at reduced power from an auxiliary site. The existing licensed tower site for KFRQ recently became unstable due to broken guyed wires and required immediate dismantlement on or around March 8, 2024.

The proposed auxiliary site is the same site specified in construction permit 0000095083, which expired on February 21, 2023. The requested power is approximately 22% of KFRQ's authorized power.

Entravision is working to replace the tower and submit an application for a new construction permit as soon as possible. Entravision estimates that the station will resume full power operations by April 30, 2025.
