

Reason for Request

Latino Media Network, LLC, (“LMN”) requests to resume operations of Station KBTQ(FM), Harlingen, TX, Facility ID 67072 (the “Station”) using temporary facilities. The Station went dark on March 8, 2024, after its tower suffered an unforeseen structural failure. As mentioned in its pending Request for Silent STA (File No. 0000240729), the tower was dismantled. LMN now seeks permission to operate using temporary facilities as described in the attached engineering exhibit.

Grant of an STA would enable KBTQ(FM) to expeditiously resume service to its community while the Station diligently works to replace its main antenna. As such, LMN respectfully requests a 180-day engineering STA to perform steps necessary to resume licensed operations.
