

## **Diplex Agreement**

This agreement is entered into this 10th day of April 2024 for IHM Licenses, LLC, the licensee of WWTX Facility ID No.:14373 and WILM Facility ID No.:16438 (the stations).

### **Agreed**

As the stations share a common ownership and broadcast antenna (diplexed) and that such operation requires common filters, traps, and other equipment to prevent interaction, intermodulation and / or the generation of spurious radiation products which may be caused by common usage of the same antenna system by the stations, this agreement is to affix responsibility of each station with regard to the installation and maintenance of such equipment.

As the stations are presently under common ownership the assignment of responsibility is moot at this time. In the event of the stations no longer being under common control as may occur in the transfer of one or more of the stations, the licensee will negotiate an agreement with the parties involved affixing that responsibility appropriately.

### **Counterparts**

In witness whereof, IHM Licenses, LLC, licensee of the stations, has signed this agreement as of the day and year first above written.
