

Minor Modification Request
 Construction Permit for KRGZ (FM) Shamrock TX
 FACID 767120
 Permit # 0000218662

Purpose of Application & Technical Statement

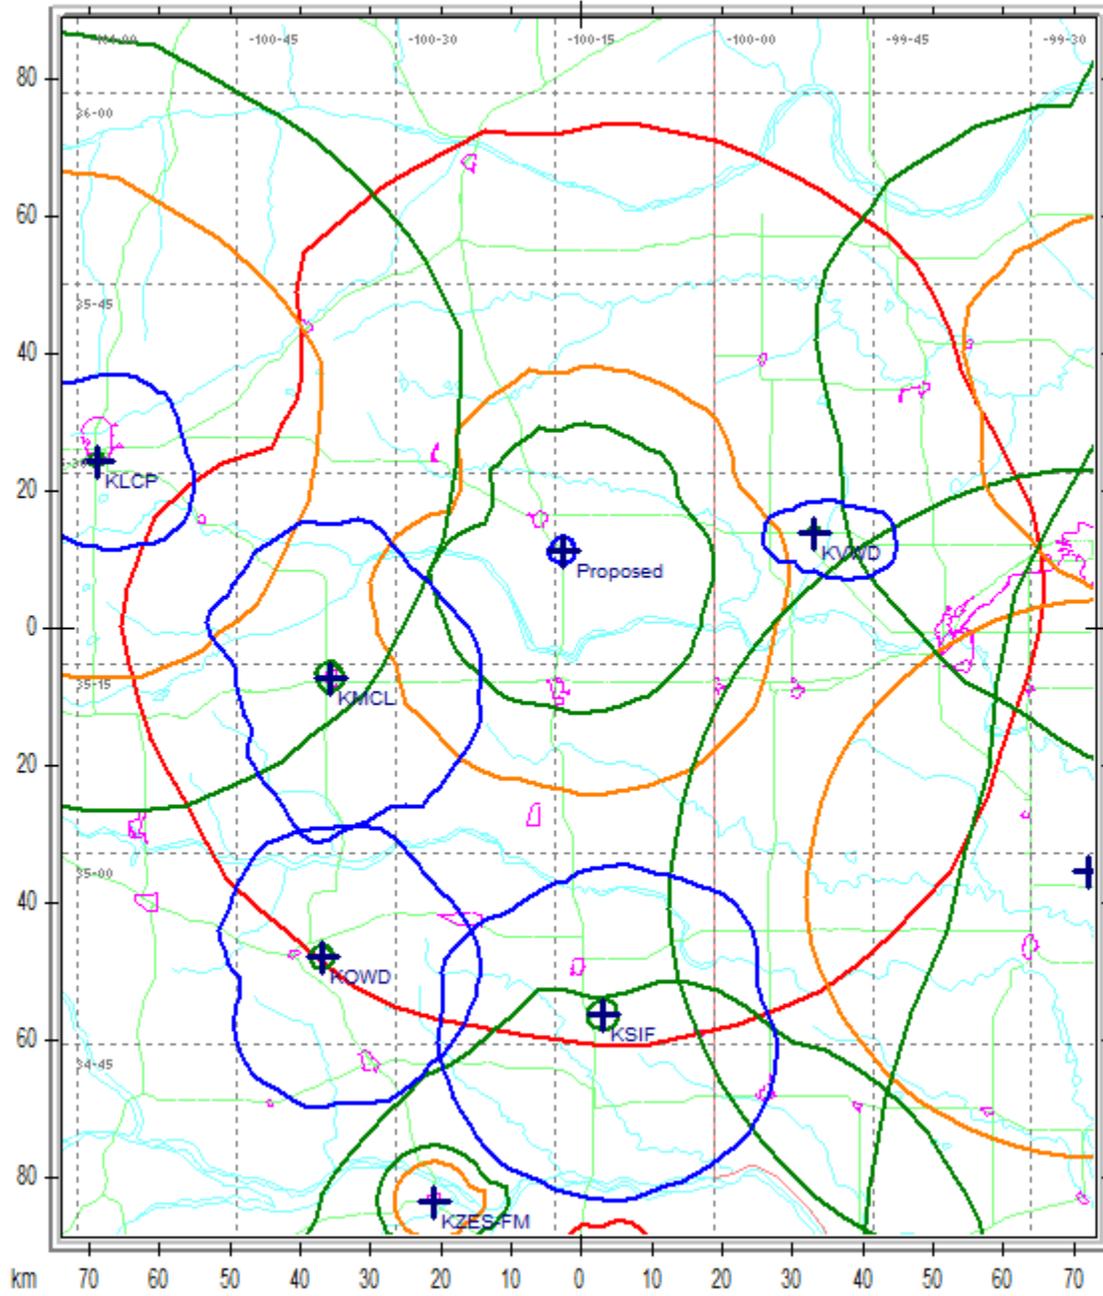

This application seeks a modification of this outstanding Construction Permit to a new location, height and Effective Radiated Power on a non-adjacent operating channel. The station will still provide 100% coverage to the current authorized Community of License.

There is no interference to any facility in the allocation landscape as shown by this chart:

The application herein requests a non-adjacent channel change from Channel 202-A to Channel 216-A. This is a minor change, in-class modification, Per MB Docket No. 05-210, RM-10960 Paragraph 16, allowing existing commercial and non-commercial licensees are permittees to request Rule Making Proposals and Allotment Petitions as a part of the electronic FCC filing process, with the requested “channel substitutions for authorized facilities being treated as “minor” changes”.

The map of allocations shows no overlap with any facility:
