

## **FCC Form 318 – Exhibit 1**

The First Baptist Church of Iredell Texas currently has campus based teaching programs for all ages on Sunday mornings that include Bible content instruction, history, ethics, counseling and music appreciation lessons. The church also offers after-school programs during the week for both elementary and secondary age students in the same content areas. The addition of a LPFM station would allow the expansion of these educational programs, as well as making them accessible to those individuals that may not be able to participate in the on-campus location class offerings. The station would also allow for the timely sharing of community wide information and announcements that have no other current means for immediate and wide spread distribution.
