

**STATEMENT OF WILLIAM J. GETZ
IN SUPPORT OF AN APPLICATION
FOR ASSIGNMENT OF LICENSE
APRIL, 2024**

I am a Radio Engineer, an employee in the firm of Carl T. Jones Corporation with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission.

This material supports the Applicant's acquisition of WHUN-FM, Huntingdon, PA (Facility ID 42135) and WLGJ(AM), Philipsburg, PA (formerly WPHB(AM); Facility ID 43879). Attached is a map labeled Exhibit A which depicts the principal community contours of all the proximate broadcast stations in which the Applicant will hold cognizable interest. As shown on Exhibit A, all the stations considered herein are licensed to communities located outside of Nielsen Audio Survey Areas. Accordingly, this material demonstrates that the proposed acquisitions are compliant with Section 73.3555(a) of the FCC Rules as it applies to contour-defined radio markets.

The four contour-defined radio markets created by the proposed acquisition which required detailed study to demonstrate that the proposed combination of stations complies with the Commission's multiple ownership rules are also shown on Exhibit A. Each of these markets is discussed herein and each complies with Section 73.3555(a) of the FCC Rules.¹

Contour-Defined Radio Market #1

Exhibit B depicts "Market #1", defined by the total principal community contour area of Subject Stations WHUN-FM, WFGY(FM), WALY(FM), WRKY-FM, WTNA(AM) and WFBG(AM) and the principal

¹ Other areas of contour overlap with attributable stations created by the proposed acquisition that are not specifically studied herein involve either less stations or a substantially similar market geometry. In these cases, compliance with the applicable multiple ownership rules can be readily verified using the studies presented herein.

community contours for other stations in which the Applicant holds no cognizable interest counted in the market. Table 1 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 4 FM stations and 2 AM stations in Market #1. Pursuant to Section 73.3555(a)(1)(iii) of the FCC Rules, the applicant is permitted to own six radio stations (four in the same service) provided the market contains 15 or more total stations. As shown in Exhibit B, the contour-defined radio Market #1 contains at least 26 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 6 subject stations and the overlapped by the city-grade contours of at least 20 other stations in which the applicant holds no cognizable interest]. Accordingly, the Market #1 satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Contour-Defined Radio Market #2

Exhibit C depicts "Market #2", defined by the total principal community contour area of Subject Stations WHUN-FM, WFGY(FM), WDBF-FM, WHUN(AM) and the principal community contours for other stations in which the Applicant holds no cognizable interest counted in the market. Table 2 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 3 FM stations and 1 AM stations in Market #2. Pursuant to Section 73.3555(a)(1)(iv) of the FCC Rules, the applicant is permitted to own four radio stations (three in the same service) provided the market contains at least four other stations in which the application has no cognizable interest (i.e. the applicant cannot have cognizable interest in more than 50% of the market stations). As shown in Exhibit C, the contour-defined radio Market #2 contains at least 24 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and the overlapped by the city-grade contours of at least 20 other stations in which the applicant holds no cognizable interest]. Accordingly, Market #2 satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Contour-Defined Radio Market #3

Exhibit D depicts "Market #3", defined by the total principal community contour area of Subject Stations WLGJ(AM), WCPA(AM), WIFT(FM), WPQP(FM) and the principal community contours for other stations in which the Applicant holds no cognizable interest counted in the market. Table 3 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

The applicant will own or control 2 FM stations and 2 AM stations in Market #3. Pursuant to Section 73.3555(a)(1)(iv) of the FCC Rules, the applicant is permitted to own four radio stations (two in the same service) provided the market contains at least four other stations in which the application has no cognizable interest (i.e. the applicant cannot have cognizable interest in more than 50% of the market stations). As shown in Exhibit D, the contour-defined radio Market #3 contains at least 22 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and the overlapped by the city-grade contours of at least 18 other stations in which the applicant holds no cognizable interest]. Accordingly, Market #3 satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

Contour-Defined Radio Market #4

Exhibit E depicts "Market #4", defined by the total principal community contour area of Subject Stations WLGJ(AM), WBHV(AM), WFGY(FM), WFGF(FM) and the principal community contours for other stations in which the Applicant holds no cognizable interest counted in the market. Table 4 contains each station's call sign, city of license, state, channel of operation, and technical facilities.

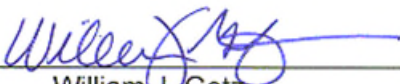

The applicant will own or control 2 FM stations and 2 AM stations in Market #4. Pursuant to Section 73.3555(a)(1)(iv) of the FCC Rules, the applicant is permitted to own four radio stations (two in the same service) provided the market contains at least four other stations in which the application has no cognizable interest (i.e. the applicant cannot have cognizable interest in more than 50% of the market stations). As shown in Exhibit E, the contour-defined radio Market #4 contains at least 17 operating commercial or noncommercial radio stations [defined by the city-grade contours of the 4 subject stations and the overlapped by the city-grade contours of at least 13 other stations in which the applicant holds no cognizable

interest]. Accordingly, Market #4 satisfies the multiple ownership criteria set forth in Section 73.3555 of the FCC Rules.

This statement and the supporting Exhibits and Tables were prepared by me or under my direct supervision and are believed to be true and correct.
