Dwayne Sam  
Foster Garvey PC  
3000 K Street NW  
Washington, DC 20007

Dear Dwayne Sam:

This is in response to your email dated April 22, 2024, regarding the vessel SAG RIVER, O.N. 539313 and the visual-signal WLDF.

In accordance with your application, the Federal Communications Commission has been notified today of the cancellation of the visual-signal WLDF formerly assigned to the subject vessel.

The task of issuing call signs resides with the Federal Communications Commission (FCC). The United States Coast Guard's role with the FCC is strictly in a research capacity, determining whether the vessel is in service, and the call sign is still active. If the vessel has been deleted from documentation, the U.S. Coast Guard does not object to having the call sign reassigned. If the vessel's Certificate of Documentation is valid, the U.S. Coast Guard states that fact and indicates that the call sign is still in use, and, therefore, unavailable for reassignment.

If you have any questions regarding this letter, please contact the undersigned, at (800) 799-8362.

Sincerely,

KIM E. DEMORY  
Records and Research Manager  
Data Management & Administration Division
