

K222CV
Silent Justification
May 17, 2024

On Sunday May 12th, One Ministries, Inc.'s other FM translator K218EN on Mt. St. Helena was discovered to have a transmitter problem with no audio being broadcasted. Since K218EN is OMI's primary FM translator at the site, the equipment for K222CV was used to get K218EN working again. This resulted in K222CV being taken silent. OMI is working on repairing the equipment. Meanwhile, OMI has also found a new site to move K222CV to and will be filing an application expeditiously to move to that new site with the goal to server other portions of Sonoma County.
