David A. Janzer  
3756 Stillwater Circle  
Waukesha WI 53189

This is to certify that the Bustos Media translator W229CQ installed at the US Bank Building Milwaukee WI meets the RF exposure criteria required in Bulletin 65 Edition 97-01 when the station is operating at its licensed legal power of 250 watts ERP.

Access to the roof is limited to authorized technical and antenna personnel.  
Antennas are above and outside of the normal working area for such personnel.

Contract Broadcast Engineer  
For Bustos Media Milwaukee

*The permittee/licensee shall, upon completion of construction and during the equipment test period, make proper radiofrequency electromagnetic (RF) field strength measurements on the roof and throughout the building to determine if there are any areas that exceed the FCC guidelines for human exposure to RF fields. Access must be restricted to prevent the exposure of humans to RF fields in excess of the FCC Guidelines (OET Bulletin No. 65, Edition 97-01, August 1997). Furthermore, any areas found to exceed the recommended guidelines must be clearly marked with appropriate visual warning signs which describe the nature of the hazard.*
