

STATEMENT

All Media Community Group is an organization that has existed in the community since 2017, initially helping people in our community affected by Hurricane Maria and registered with the PR Department of State of the Commonwealth of Puerto Rico in 2023.

All Media Community Group will expand its community outreach through radio, advising and informing those most in need of opportunities and assistance programs to address their needs.

After the community and the recovery work done during the aftermath of Hurricane Maria, for the past three years, All Media Community Group has dedicated itself, together with other civic and charitable entities, such as the Lions Club, the Rotary Club, the Red Cross, and Liga Puertorriqueña Contra el Cancer, to bring information, resources, including food and medicine, to nearby communities in need of these resources.

Our goal is to continue to serve these communities, especially those more disadvantaged around our area of action, Vega Baja. The proposed LPFM station is expected to provide radio coverage to the disadvantaged communities of Vegabaja Lakes, Los Naranjos, Barriada Sandin, Guarico and Guayaney. The LPFM station will significantly help provide accurate information and advice on essential services to these communities.
