

Exhibit 1 to Pre-Auction Technical Certification for WDWO-CD Facility ID 68444

There is a discrepancy in the Database Technical Information for this station's antenna manufacturer. The correct manufacturer is ERI.

The station's license to cover application form FCC 302-CA (BLDTA - 20130108ABZ), section III, part 6, states antenna type ERI Model ALP16L2-HSOC.

The commission's TV Query site correctly indicates the same antenna (<https://transition.fcc.gov/fcc-bin/tvq?list=0&facid=68444>).

The station's authorization, and the LMS Facility Technical Data (<https://enterpriseefiling.fcc.gov/dataentry/secure/tv/facilityTechDetails.html?facilityId=68444&applicationId=8bd448c8f8244c358985cf6212b6c0ea>) both show the antenna as AND ALP16L2-HSOC – while the model is correct, the manufacturer should be changed to ERI. The antenna pattern is identical, so there is no impact to the contour or other technical parameters of the station.
